

PROMILK | Milk Replacer

- A great all round milk replacer suitable for beef and dairy calves
- Value alternative, suitable for older calves
- 20% protein, 17% fat
- Fortified with vitamins and minerals
- Very palatable and mixes well
- Blended with a range of dairy proteins to ensure good digestion and absorption
- Suitable for automatic feeding systems, once a day feeding systems and bucket feeding.

Feeding Details

- One 25kg bag makes up 200 litres of milk (44 gallons). Usually 35 kg of powder needed/calf
- Typically feeding at 125 grams/litre. (12.5% mixing rate). 5-6 litres/day = 625/750 grams of powder/calf/day. Feed 3 litres twice a day
- Mix 600-625 grams of powder to make up 3.5 to 4 litres of milk
- Feed warm at 38-40°C. Mix well using whisk etc
- Wean when calves are eating 1kg of meal/day. Typically at 8-12 weeks of age
- Ensure calves have access to fresh water, roughage and meal
- Can be fed once per day from 3-4 weeks
